

Release Note for VigorAP 1000C

Firmware Version:	1.3.5
Release Type:	Normal
Applied Models:	VigorAP 1000C

VigorAP 1000C is a ceiling-mount Wi-Fi for business networks. As a tri-band AP, it provides an extra 5GHz Wireless band which increases the supported number of wireless devices. In Mesh mode or Range Extender mode, this extra band can also be dedicated as the Uplink band to the Internet. VigorAP 1000C is suitable to construct a small Wireless network.

New Features

- None.

Improvement

- Improved: Remove 3DES ciphers.
- Improved: Add Mesh Preferred Uplink Timeout options.
- Improved: Modify the wireless security type naming and order.
