

Release Note for VigorPhone 350

Firmware Version: 12202.26.1.04

Built Date: June 09, 2010

Applied Models: VigorPhone 350

VigorPhone enables you to make phone calls through the IP network instead of calling through a tradition local PSTN line.

It is workable with VigorIPPBX series for auto provision capability. To manage various calling purposes, VigorPhone supports multi-sip registration with different accounts (up to 10) and support G.722 codec for promoting voice quality. The simple WEB UI based configuration allows you to operate VigorPhone with ease.
