Release Note for SmartVPN Client

Firmware Version:	5.7.2
Release Type:	Normal - Upgrade recommended when convenient
Applied Operation System	Windows Vista 32-bit/64-bit, Windows 7 32-bit/64-bit, Windows 8, Windows 10, Windows 11, Windows Server 2012 R2

The Smart VPN Client is a VPN configuration utility. It makes VPN configuration easy for users. It could support the following VPN schemas, PPTP, L2TP, IPsec, OpenVPN, WireGuard VPN and DrayTek SSL Tunnel.

New Features

- Support routes control for EasyVPN.
- Provide a shortcut on the desktop after installation.

Improvement

- Improved: Update VPPP driver signature.
- Improved: Add a new option, Chacha20-poly1305, for Encryption Algorithm.
- Improved: Support more information (e.g., Uptime, Mask, and TX packets) when EasyVPN is connected.
- Corrected: An issue with translation of web user interface for Polish.
- Corrected: An issue with the incorrect display of "Please check Email" with no connection to the EasyVPN server.
- Corrected: An issue with failure to send all traffic through the tunnel for the WireGuard VPN based on the EasyVPN profile.

Known Issue

- SmartVPN Client will possibly pop up an error "Hardware failure in port or attached device." if a user tries to reconnect SSL VPN after a long-time performance test with SSL VPN.

Note

- No longer support Windows XP system.
